## PERSONALS PROJECT

● **RESUME**                                    03/2021

  **Online Resume.**

  Demo link : Resume.

● **NOTES**                        17/02/2021 - 11/03/2021

  **Note-to-self web app.**

  This app let user create their own note and store them at browser local storage. It also has some additional feature like grouping notes into one folder, custom note color, theme, animation background (more in the future).

  This app was made using HTML5,CSS and JavaScript. It also used "Isotope" JavaScript library to display note and folder using mansory layout, "Fontawesome" and "Flaticon" for icon display.

  Demo link : Notes.

● **DUSTAURANT**                   23/01/2021 - 17/02/2021

  **Responsive web homepage with restaurant theme.**

  This project was made with pure JavaScript, HTML5 and CSS. Using google maps API for the location and Fontawesome, Flaticon for icon decoration.

  It has 7 pages in total : Home (index), About, Menu, Stories/1 blog page sample, Contact, and Book.

  It works great in Chrome, Opera, Edge, Firefox browser with the latest version.

  Originals design template : click here.

  Demo link : Dustaurant.

● **WINDTECH**                                  01/2021
